

SDP EZ HAULER

EZ Hauler 4100

PRODUCT DESCRIPTION

The EZ Hauler 4100 is a track driven mini-digger derrick that will go places you wouldn't think of taking a line truck. Try driving a line truck through a 36-inch gate, for instance! The EZ Hauler 4100 easily drives through tight spaces. Once you get to the work site, the EZ Hauler 4100 has the power to finish the job, with its 4,100lb lift capacity and its ability to set utility poles up to 60 feet long. It also has the ability to pick a 3,000lb padmount transformer.

The EZ Hauler 4100 is not only a mini-digger derrick, but has the ability to perform as a crane and a bucket truck. It is mainly used for backyard easement, Electric companies & contractors are the majority purchasers of the EZ Hauler.
