

HOGG & DAVIS PULLER

ODP 100 Drum Puller

PRODUCT DESCRIPTION

The ODP 100 is a single drum puller capable of line pull or tension of up to 10,000lb. Pulling is controlled with an electric over hydraulic, spring return to neutral joystick allowing for infinite control of line speed and presettable line pull, and the operator controlled post style levelwind allows for even winding of rope. Disengaging the drive system allows for free wheel payout of the pulling rope with an integrated hydraulically controlled overspin brake.

All unit functions are centrally located at the operators station. Engine and hydraulics system gauges including tachometer, oil pressure, temp, voltage, hydrostatic pressure, and overspin brake pressure are all in view, and a PowerView Engine Info Center allows the operator to monitor all functions of the power unit.

KEY FEATURES

- Continuous Linepull Rating: 10,000lb
- Continuous Torque Rating: 200,000in-lb
- Infinitely Variable Speed from 0.0 – 4.2mph
- Rated Diameter: 80"
- Width: 57.5"
- Rated Rope Capacity: 20,000 feet (1" dia)
- 185HP @ 2,400 RPM Diesel Engine
- Closed Loop Hydrostatic Hydraulic Drive
- Spring Applied, Hydraulic Release Drive Train Brake
- Mechanical Clutch on Drive Hub Engagement
- Standard Freewheel Disconnect on Hub
- 36" Diameter Medium Carbon Overspin Brake
- 20.1 Gallon Fuel Tank w/Level Gauge
- 33 Gallon Hydraulic Oil Tank w/Temperature Gauge
- Hydraulic Boom Levelwind
- Lockable Steel Battery Box
- Baked White Enamel Finish

TRAILER FEATURES

- Tandem 12,000lb Leaf-Sprung Axles
- 24,000lb GVWR
- Electric Trailer Brakes
- (3) Drop-Leg Manual Leveling Jacks
- (4) R17.5 – 16 Ply Rated Tires
- Full Coverage Fenders With Mudflaps
- D.O.T. Trailer Lighting with 7-Wire Connector
